

Homestay with Golf

Programme Overview

- * The basis of this programme and the main key to its' success is that students do not reside in a school, residential centre or other group accommodation, instead they enjoy the all-encompassing experience of staying with an Irish host family.
- * Staying with a host family is designed to allow students to learn English through total immersion in an English speaking environment while enjoying **a minimum of three rounds of golf per week with a member of the family.**

Matching to a host family

Families are carefully matched to students in terms of gender, age, interests and hobbies.

Students will be placed with a family who have a child of the same gender and similar age (+/- 2 years)

Each and every family is carefully selected and approved. They are happy to welcome students into their home to share the daily life of their family.

To ensure the best possible match please note your golf level when booking

Will there be excursions?

There are no included excursions on this programme. Host families do tend to make some special outings with their students to show them the local area and if the family are going on a family day out the student is included. On a day to day basis family life continues as normal.

Will there be other students with the family?

Each student will be the only student of their nationality with the host family. There may be another student of a different nationality also staying with the host family at the same time.

Daily & Golf Itinerary

There is no set daily itinerary. Every family's day is different from that of another.

The focus of this programme is on the student being warmly welcomed to experience the life and activities of their host family. At least one member of the family will be a keen golfer who will play a minimum of three rounds of golf each week with the student. As it is often weather dependant and fits around the families routine, a set timetable for playing golf is not defined. It is often the case however that much more than 3 rounds a week are played!

Green fees

Students must pay their own green fees. Green fees can vary from €5 to €30 a round dependant on the golf course. Often host families can arrange a deal for their student with their golf course. Once students are matched with their family, they will be notified of respective fees.

Will Wifi be available?

99% of host families do have wifi in their homes but dependant on the home location it may sometimes not be available.

Location

Golfstay families are located throughout Ireland

Stay Length

Golf stays usually range from two to three weeks. Longer or shorter stays can also be accommodated.

Essentials to bring

- Suitable golf attire
- Golf Clubs

Will students have their own room?

Students may have their own room, they may be sharing with a host child or they may be sharing with another student of a different nationality. As each family home is unique to each family, every one will be different.
